- Utilized jQuery, React, and other JavaScript frameworks to optimize website performance
- Solved complex coding challenges to ensure smooth functionality and optimal user experience

2: **Final Projects for hackerU** :

https://github.com/hannamzg/products
https://github.com/hannamzg/addproduct
https://github.com/hannamzg/products-backEnd

Created a store web app where users can register, add products and other users can buy.
Developed through React, Node.js and MySQL

3: **Acre - israel 2019-2021**

National Service: police Depoartment

Served in the national service in the investigation department in Acre. It was a transformative experience and it taught me many fundamental things about law enforcement and public service. I learned about the importance of discipline, teamwork, communication and empathy. Overall, the experience helped me develop a strong sense of responsibility and duty towards my community.

EDUCATION :

Ramat Gan ,Tel Aviv : 2022 → 15.2.2023

Full Stack Web Developer : HackerU

Graduated as a Full Stack Web Developer and capable of developing web applications in React and Node.js along with MongoDB and MySQL. Learned the fundamental web development concepts that gave me the foundation and logic needed to grow and improve as a Full Stack Web Developer.

Kiryat Bialik 2022 → 2022-Present leraing at night

Software Enginner : Ort Kiryat Bialik College

As a software engineering student, I am currently pursuing an education that focuses on developing my skills and knowledge in Java programming, data structures, algorithms, and mathmatics.

Overall, my ongoing education has equipped me with the necessary skills and has provided me with a solid understanding of essential analyzing algorithms.

My Skills

- **html**
- **css3**
- **javaScript**
- **TypeScript**
